

LET'S MEET

The ideal solution for collaboration and communication.

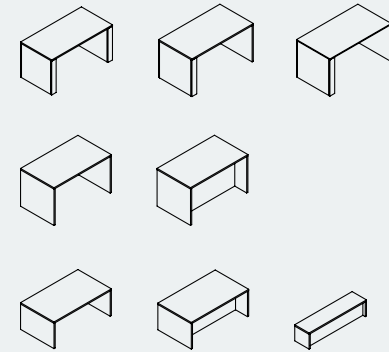

LET'S MEET is an agile collection of tables suitable for gathering and collaboration. Available in two standard heights, worksurface thicknesses, and end panel styles; with a wide range of sizes and finishes. Add on power modules with USB charging capability in various locations for added functionality.

- Top and side panels available in 1" or 1.5" thick thermofused laminate
- Units are standard with undersurface wire manager trough
- Available with wire access base for concealed wire management
- Add bench units to create touch down meeting settings
